(Responding to 396 unreads in HS SC and 61 in BH) I wasn't here for the Golden Age, granted, but still, it seems kinda low. [That moment when you realize you experienced the Golden Age.](#) [That moment when you realize Rome's Golden Age was like 2000 years ago.](#) [That moment when you realize that Israel doesn't know what the NSA](#)

Golden Age was. The moment when you realize he doesn't really care about not knowing. That moment when you realize that Simeon is pretty much on the same page as Isry. That moment when you realize chocolate ice cream tastes like chocolate ice cream. That moment when you realize that we have gone slightly off topic. That moment when you realize that topics change so fast on NSA, there's significant danger of mental whiplash. That moment when you realize it's cold outside, when you go outside and it's cold. That moment when Baby, Its Cold Outside gets stuck in your head. That moment when you want to hit Raegan over her head because she just got a song stuck in yours. that moment when you wish nobody had moments and would just say what they mean. e.e That moment within a moment when your moment is momenting what you really mean.

^ _____ ^ That moment when you realize Rae just blew your mind with her logic. That moment when you know Shalom could say something way more complicated and logical because he's just like that. That moment when you realize Shalom isn't that active anymore. That moment when you realize that's TRUE D: Exactly! D:

Oh, and that moment when you realize you should really be reading about the Olmecs and Zapotecs instead of posting in the SC. That moment when you realize it's getting harder with each post to not talk in the moment. That moment when you realize you all lost the game. O_O That moment when you realize a NSA legend just posted in the SC. The moment when you're too overcome by grief because you lost the game that you don't realize an NSA legend just posted in the SC.

Sanity does not properly exist. There is a scale by different groups of people, saying this is sanity, or that is weirdness, or this is normal. It is entirely opinionated. Therefore, there is no overall system of sanity for people. One's 'sanity' does not determine how they think or how they act. One can think the world is strange, but the world thinks them strange. The stability of the brain is directly in control of the sanity of the human, and that determines whether they are sanitary. u_u Hence, if you are a brain doctor, and the client seems insane, insanitary, and unstable, there is a 96.8527013% chance that either they are completely bonkers, or you're a pickled pineapple.

Or not to cake--That is the question:
Whether 'tis nobler in the stomach to suffer
The sugars and fats of outrageous flavor
Or to take arms against unhealthy troubles
And by opposing end them. To refrain, to leave be--
No more-- and by restraining to say we end
The stomachache, and the thousand natural shocks
That carb is heir to. 'Tis an indulgence
Devoutly to be wished. To refrain, to leave be--
To leave be-- perchance to run: ay, there's the rub,
For in that forsaking of gluttony what health may come
When we have shuffled off this dreadful greed,
Must give us pause. There's the respect
That makes calamity of such great cake.

Is this a cake I see before me, its iced perfection before my hand? Come let me eat thee. @_@ I have thee not and yet I see thee still! Art thou not, tasty vision, sensible to feeling as to sight? Or art thou but a cake of the mind, a false creation, proceeding from the heat of pressed brain? Come, to cake or not to cake? Strike thee not on thy chances at true sponge? Whether 'tis imagination, know thee not, until thy mirage hast thou proven rightly. Let thine hand against yonder delicacy thrust, that thine dream may be confirmed. D:< To cake, I say! Aye! 'Tis time to shake these ancient rafters with the sound of three hurrahs! Hear me, foul and vile beasts! Thy enemy has come to thee, and he cries, "To cake! To cake! To cake!" v.v But soft, what scent through yonder kitchen window breaks? It is the east, and the frosting is the rising sun. Arise, fair sun, and kill the envious moon pie, who all the people are already sick with overeating it, that thou, her cake, art far more fair than she.

Shall I compare thee to a Summer's day?
You're more quiet and a whole lot deader u_u

Has learned that silence is as a fetter
In long past months, the life in here shone hot.
And oft' if we would miss a single day,
Our conference would fill with posts read not!
We'd be left behind in Times NSA
But now our constant, spamming posts have left
To be ruled by the evil porkypines. D:
The kinkajous have started to protest
Terrors of silence rushing through our lines.
So long as students come online and type,
Let our activities and posts be ripe!

I personally think there are too many boy meets dragon fish out of water stories out there right now... Then think up something else. u_u Something more creative.

like.... a girl meets dragon fish out of water story!

facepalm Nooo! Use your imagination, silly. ok, how about *thinks*

a short person finds this ring..... and he goes on a quest to throw it into a volcano! *tsks* No, no... Use your own

imagination. um ok..... uh *thinks* um *thinks some

more* how about this! A boy wizard has adventures in a school name Pigwarts! Pigwarts? >_> Who'd want to go to school named that? xD But, no... still not using your own imagination. v.v um..... v.v *thinks* how about..... I write a poem, and its about this raven, and he keeps tapping and saying "Nevermore!"? How does that one even have to do with a dragon? o.o i dont know, you just wanted me to come up with original ideas! Yeah.. using Edgar Allan Poe's poem isn't very original though. xD *sigh* YOU ARE SO PICKY! How about a dragon goes on a quest with a boy, instead of a way around. alright, so there is this dragon, and he is hunting one day, when he finds an egg, the egg hatches, and out comes a boy! the dragon discovers that there is this bad guy who wants to kill the last of the boy-riders, and he goes on a quest to defeat him! The boy is named "frodo" - FP- No. u_u Take the dragon's side of a dragon-and-his-boy story. OH! I JUST HAD A GENIUS CREATIVE WRITER'S EPIC MOMENT OF CREATIVITY! we could write a story called "The dragon and his boy" and the boy (named ERAGON), finds out his dragon can talk, and he runs away from his mean father, and meets a girl that rides a talking dragon on the way, then he goes to this big city, and overhears the evil prince trying to convince his father to attack "Barnia", the agricultural nation next to the evil prince's, and so the dragon and his boy must go to Barnia to warn them!

On a scale of one to America, how free are you tonight?Hah, not for long... Don't turn this into a political discussion xD
Girl, you must be tired, 'cause you've been runnin' through my mind all day.

Girl, you must be made of two of my favorite elements... Copper and Tellurium. Because you are CuTe.

Are you a parking ticket? Because you've got "fine" written all over you.

Did it hurt when you fell from heaven? 'cause your face is pretty messed up.

Wait... Burn...

You're like my appendix. I don't know how you work and this feeling in my stomach makes me want to take you out.

If I march around you seven times, will you fall for me?

My love for you is like diarrhea, I just can't hold it in. xD

BABY YOU A SONG, YOU MAKE ME WANNA ROLL MAH WINDOWS DOWN AND CRUIIIISEEEE

You're hot and I'm ugly. Opposites attract, so we gotta be together. Sorry, I don't make the rules. **If you were words on a page you'd be fine print.**

If you were a magnet I would be steel. If a fat man stuffs you in a bag at night, don't worry, I just told Santa I wanted you for Christmas. **Someone had better call the cops because you just stole my heart! I'm Batman.**

crashes into your hobbit-hole in the middle of the night Is it secret? Is it safe? *wakes up all confused and annoyed* *looks at a spot in the corner of the room*
Yes, it is both secret and safe. *darts to the corner and digs through your trunk* *turns to you and nods gravely* very well. v_v It's a lot less secret now... << You mean...?
glances at dark window *hears a rustling outside* you must leave! Too late, they've already heard everything. You know what this means right?
whispers We have to kill them. *eyes widen* couldn't we see who it is first? It might be a Gamgee...@_@ *slowly tries to creep away* *grabs Kendra Gangee by the ear* *drags her into the window* Have you been eavesdropping?? >:-O Aaahhh! N-no! I ain't been dropping no eves, Sarah! Just trimming the leaves of the garden, I was. :O *raises one eyebrow* *wizardish gleam enters my eyes* *plops Kendra next to Israel* I have a better idea... Kendra, you must help him win a beauty pageant. >.>
Hah, Gamgee? You think she could help me? *raises eyebrow at you* I'd say you should take all the help you can get. *coughs harder than usual* Israel, be thankful. You've got someone to help you out. Kendra, looks like you have your work cut out for you. >.> *straightens pointy hat* *crinkles nose as I survey Israel* well, where on earth should I start? *continues inspecting Israel* hmm...you're gonna need a lot of work to compete with Legolas... *reaches in back pockets and pulls out pliers and wrench* I've got just the idea... ... what are those for..? son. Beauty pageants are bad, bad, bad, bad, bad, and bad. **But... the prizes...** You get prizes from adventures too! **BETTER prizes!** Do you get a sash that says you're the beauty pageant winner? I didn't think so. << you could get Arwen to make you a banner... Or something **or something???** You must stay away from the likes of Legolas. He might corrupt you with his sparkly ways! Oh, I hope so. One day I hope to be as fabulous as he. So pretty O_O O_O *shudders* You have been corrupted already! You must be cured of Legolas-itis! **What if I don't want to be cured???** Then you're sicker than I thought! We need to get you to a healer! Nah, too much magic in him. Might turn Izzy here into something...unnatural... @_@ Go on adventures instead! **D: They build character, strength, and provide more chances for dramatic music and breathtaking landscapes.** Oh no. **No no no no NO!** Hobbits aren't meant to go on adventures. They're awful and messy and dangerous and sometimes you forget your pocket handkerchief and everything's ruined. I'm not going on an adventure. I'll see New Zealand some other way. xDD It is the only way, precious! Besides, despite what you think, hobbits excel at adventures! **Pfft, only the weird ones go on adventures. I clutched my suitcase tightly. Everything I owned was in my hands. **The suitcase was empty, with not even a penny in it. At my first chance, I had started saving up for a suitcase, for I knew I'd be leavig some day. Orphanage life didn't suit me.** Your suitcase has nothing but potential to discover. Nothing to lose, everything to gain, and nothing to hold you back except the extreme poverty to which you are subject. Walking is probably your best bet for transportation unless hitchhiking happens to be a talent of yours. **Within five minutes, I'll have a map, and some food. *sits on the side of the road looking homeless* *drives up in a black, darkly-tinted sedan* *rolls down window* Lookin' for a ride? v_v** Yes sir, and a map, and some food, and a hammer. I'll throw in candy and a puppy, if you like. *unlocks door* Hop in. **First I'd like the map and the hammer, if you please, for I'd like to be sure you'll give them to me.** No worries. We'll get you those. *reaches into glove compartment and pulls out a map* I don't have a hammer with me, but we could go to Walmart and pick one up, along with some chicken for the road. ^_^ @_@ **ASHLEY! DON'T GET INTO THE SCARY KIDNAPPING CAR WITH THE SCARY WOMAN!!! *throws myself onto Ashley's ankle* DOOONN'T GOOOO I will go, but first I need a hammer, to fix my suitcase. to fix the wobbly wheel on my suitcase* Say, are you and the hammer heading west? o.o she has the power to wield Mjolnir!?! Steve Rogers does. So does Wonder Woman. *raises hand* Allo! So... are you Steve Rogers or >Wonder Woman?< O.o Yeeeeeeeeup. *bows respectfully* you are welcome to the temporary usage of my dear Mjolnir, Female of wonder. Please give it back now. Thank you. *hands it back to you* There ya go! Say, do you happen to be heading east? Can't you fly? You were annoying me. v_v *dusts hands off and walks away* *starts to sniffle* *checks "Making children cry" off evil checklist* Muhuhahaha... O_O *triple front flips out of the hole* Stop right there! *pulls out weapon* Evil does not prevail.. especially in a library.. u_u Imagine zhe following in a heavy Austrian accent. Zhe Library is a place of learning for both sides of the moral spectrum. Voltaire and Plato present deeply logical advice to any world leader, even in a hypothetical sense. I, for one, plan to use it to take over zhe world, and later to enslave all of humanity. You see, it is a hard thing, trying to take over zhe world. You have to start small, with every-day cruelties like crushing little girls' dreams of being Barbie Fairy Princess. V_V And so, evil may not prevail, because your acrobatics are very impressive, but the war is not yet over. This library is neither swayed nor claimed yet. *walks slowly backwards into the shadows of the shelves* Zhe lighting in here is really poor. o_o XD Come on then, the world is waiting.. your last obsticle is right in front of you >:) *kicks a table over* *jumps over it and runs away to evil lab* @_@ Wuss!!!! u_u Bravery is not the way of eviiiiil! *calls out menacingly while running away, terrified* good point... *starts chasing you* You won't get away with this!!!! *jumps in the Getawaymobile* *gets away* *grabs random persons bike and chucks them some cash* ready or not, here I come >:)

Agreed. xD >.> YEah.... So don't con-text me. *facedesk* They wanted my pun before they'd vote for me. So yeah. >.> <_< been under tried tried or tired? circumstances? -fp- Nice one. well, we were on a fairly good roll. like butter? Or just margarinally on one?xD Yea just like margarin. :p xD That was a buttered up pun. You're just being a roil pain with your puns. u_U I try xD Fortunately, my dairy-ing puns can act as a cownter to your cheesy ones. u_u Cheesy? Are they sanctified, like the holy swiss cheese? Is that the best pun you can think of? Or are you just an undera-cheese-ver?

To answer your question though, no, it's not holey. It's actually rather cheese-vil

J. Raines (SC 11th Rep)[10:02:21 AM]: and send it to you.

J. Raines (SC 11th Rep)[10:02:28 AM]: Oh, true..

Shalom Cross! You have accepted the challenge for a duel to the death over the heart of Raegan Allinder, you cowardly slug. Dare you show your face, spawn of slouching slaves? *skates in* Dare I? Dare you follow up your foolish challenge, yellow boweled fowl? Come now, brave men. Have one of you prove your bravery and let the fight begin! *unholsters my chicken gun* Too bad it's only big enough for the small ones, Shalom, otherwise I'd shoot you from it. *ap_plause* THIS IS WAR. THERE WILL BE NO MISUSAGE OF GRAMMAR OR SPELLING, thank you very much. Sorreh...
ap_plause

Cowardly cur. I should fry you up as a Chick-fil-a sandwich, but I expect it would make me regurgitate...

It says he created a reply, but he hasn't sent anything... His brain cell must be pretty lonely... I'd come back by calling you a spineless hut'uun, but I'd be insulting Gungans all across the galaxy. Alright, shabuir, that's it... *brings up my DeeCee* Either go back to your Hutt hole, or fight like a real verd, you son of a motherless goat. Son of a motherless... Is that even possible?

I mean... *whips out my DeeCee* Come at me if you can force your shaking knees to move! My knees were only shaking because I was doing the Charleston in boredom waiting for a reply! Well that makes sense, your weaponry looks like it's from about the same era, judging from its condition. Well, as new as your's looks, I doubt you have any experience with it. I'm honestly quite surprised you have it pointed in the right direction. Is that just because I raised mine first? Please, despite how impressed I am that you were able to raise it to your skinny shoulders in the first place, I have enough skill to singe the clod of a head that rests on them. Skinny shoulders? I knew you were supposed to wear glasses, but I didn't realize how bad the need was. Sure, you may have enough skill to singe off my head, but then the question arises whether you'd see it correctly or not. You could inadvertently remove the head of my beloved, and then I would exterminate you without hesitation. Exterminate? If I were to make so grave a mistake as to mistake your beloved's face for your own ugly mug, I might have enough pity to spare you a shot at me. My beloved? Is she not your beloved as well? If not... Why the heck are we here?

Guess I won... xD
